Prescott's New Volume The Storming of Galera.

We present, from the advance sheets of volume III of Prescott's Philip II the following fine extract, describing, in the eloquent and characteristic narrative of the author, the storming of Galera—one of the last strongholds of the Moors in Spain The volume will be published on the 8th of December by Phillips Sampson & Co —

On the sixth of February the engineers who had charge of the mines gave notice that their work was completed The following morning was named for the assault The orders of the day prescribed that a general cannonade should open on the town at six o'clock in the morning It was to continue an hour, when the mines were to be sprung The assault would then take place, for another hour shot will be fired, but the attack would be given Ten guns was to be the signal of one grand discharge of artillery, to be followed by a general discharge from all The guns situated on the north would then cease firing, and the troops would advance to the breaches

On the seventh of February at daybreak of the appointed day the engineer in charge of the mines, with a few soldiers, proceeded to the subterranean chambers which had been excavated under the walls of the town. The match was lighted, and the party retired in safety to the rock and throwing off the fragments with which the mouth of a volcano. Of a sudden a tremendous explosion followed by the earth, which shook the city to its foundations, and a column of fire, smoke, and stones, rose high in the air, and then fell back in a shower of ruins. The effect was terrific. The whole city was enveloped in a cloud of dust, which for a moment concealed the ruins from the eyes of the spectators. Then the dust cleared away, and the effect was seen. The attack would be given. The signal was to be the firing of one grand discharge of artillery, to be followed by a general discharge from all The guns situated on the north would then cease firing, and the troops would advance to the breaches

HIGHLY IMPORTANT DISCOVERY

Fousel's Pabulum Vitæ

Has now gained its position before the public as

THE ONLY REMEDY

yet discovered for the speedy relief and permanent cure of

CONSUMPTION,

Coughs, Colds Hoarseness, Bronchitis, and all other Pulmonary Complaints

The discovery of an eminent French Physician after many years of study and observation, it continually meets with the most

ASTONISHING SUCCESS

in the treatment of the above complaints

Its unabated popularity numerous certificates of remarkable cures the recommendation of some of our most eminent physicians and the analyses of Dr A A Hayes the State Assayer, all give convincing proofs of

THE UNRIVALLED VIRTUES

And Unqualified Superiority

of this preparation to any other remedy now extant, and are constantly contributing to give it a wider and more enviable reputation. From its vegetable nature, it affords repose freely, and consequently is MERCY IN ITS ACTION UPON THE LUNGS and AIR PASSAGES

The disorder which has been thrown upon all preparations not prescribed by regular physicians, by reason of the recklessness with which worthless and injurious compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation, the agent however, assures the public in all sincerity, that this medicine is not only *perfectly safe, and free from all other deleterious ingredients*, but guarantees that it will effect all that he represents and not having heard of a single case where it has failed to give satisfaction

It is warranted to cure

Consumption by using One to Six Bottles,
Bronchitis by using One to Three Bottles,
Coughs by using less than One Bottle,
Colds by using it Two to Six Days,
Bleeding of the Lungs by using less than One Bottle,
Hoarseness by using less than One Bottle,
Soreness of the Chest by using less that One Bottle,

STATE OF MAINE.

EXECUTIVE DEPARTMENT, Augusta, Nov. 12, 1856.

An adjourned session of the Executive Council will be held at the Council Chamber, in Augusta, on *Wednesday*, the fifteenth day of December next.

Attest, NOAH SMITH, Jr., Secretary of State.

The "Mariposa Claim" about which there has been so much controversy, and so many accounts of its almost fabulous richness, is a reach, ten leagues in extent, lying upon a creek of that name in the San Joaquin valley. It was purchased for Col. Fremont in the beginning of 1847, and the price paid was only $3000 for the entire tract. It must be recollected, however, that the purchase was made before California had been ceded to the United States, and a year before the gold was discovered. Col Fremont had never seen the place, and knew nothing of its value; but says he was always intended to make his home in that country and bought the tract, through an agent, Mr. Larkin in order to obtain a foothold there. After the gold was discovered, the tract (or the one-third of it which is gold-bearing,) was instantly covered with miners, and for some years after was worked by thousands of men, who carried off the gold without the payment of a commutation from the owners. The Courts, however, have recently sustained the validity of Col. Fremont's claim, (the purchase was made from Don Juan B. Alvarado, a Mexican Governor) and it is likely he will soon receive a portion of what was his just property in the produce of the mines.

It has been well suggested that the success of Mr. Douglas in securing a majority of the Illinois Legislature through the effect of the Democratic dering apostrophe made by a demagogue Legislature, may not prove as great a triumph to him as is assumed by his many friends, and expectant beneficiaries." It may, in fact, prove to be the worst possible thing that could have befallen him, as it will place him immediately in opposition where he can neither avoid taking some *clearly defined* position upon controverted points, nor again be allowed to change or modify such positions by any arbitrary dodges such as may have availed him on the stump! A western writer says he has in the recent contest resorted to all sorts of schemes to produce success; that he has been for and against the Dred Scott decision—for and against territorial squatter sovereignty—and for and against almost all sorts of doctrines. He has now got to be affirmatively for some thing, *and stuck to it*. As the writer above referred to says:

There will be a demand made for Congressional intervention in the territories to protect slavery there. What will he say to that?—There is going to be more or less discussion about the slave trade. Which side is he going to take on the ? What is he going to do with his members of Congress? Has Illinois man crop ? rope not indebted to the Republican for votes, but Haskin, and Clark, and Richmond, and Schwartz, and Montgomery, and the Indiana men, could not have been chosen without them. What is Forney to do ? He has a divided duty. His leader in Douglas has without Republican votes at home, he is a poor powerless bolter. * * * * * The South will not yield. It will let slip or getting possession of Douglas before it supports him, and when it succeeds in this, the support of the North is lost to him.

The Portland Election. Hon. Neal Dow was chosen representative from Portland on Thursday, in place of Wm. Chase, Esq., resigned, by the following vote: For Mr. Dow 772; scattering 59. The scattering were mostly thrown for Peter Francis, a colored man, and were cast by the democrats. The negro was too respectable for the party, and so the majority of them bolted the ticket.

The State of Maine says:

The nomination of Mr. Dow for Representative, by the Republican caucus, was by no means unexpected, and his selection had no reference to any questions growing out of the liquor law. A public spirited citizen, earnestly co operating in all measures for the promotion of the best interests of Maine, we look upon his election as a recognition of these.—There will consequently be any opposition to him, as all parties now agree that the liquor law a subject out of the range of party questions.

The Boston Mayoralty.—Dr. J. V. C. Smith has been nominated as a candidate for Mayor of Boston at a Citizens' meeting. Candidates will probably be presented by the Republicans and the Democrats.

It is said that the British naval officers will not unite here with Walker while at sea, but will attack him after he has landed. It is also stated that Gen. Walker will experience no difficulty in obtaining a clearance at Mobile.

Transportation Price of Gold. The bullion in the Bank of France now stands at about $120,000,000—a higher sum than was ever before held by the establishment, and more than $9,000,000 in excess of the largest total ever collected in the Bank of England. At the commencement of the present year, the coin and bullion in the Bank of France had less than $65,000,000, and the influx in nine months has therefore been $55,000,000. At the Bank of England the total at the beginning of the year was $63,000,000, and it is now more than $38,000,000. The highest sum it has it ever possessed was $111,000,000, in June, 1847.

New Commercial Order in Cuba.—A circular from Messrs Bayley, Traub & Co, dated Matanzas, Nov 8th, furnishes the following intelligence

"By an order lately published, it is required that all vessels arriving at ports of this Island after the 1st January, 1859, shall bring with them manifests of the cargo on board, containing the marks, numbers, kind of packages, and their contents, (without going into particulars, or as in ballast, stating so,) which must be certified by the Spanish Consul at the port of departure A duplicate of the same must be given to the said Consul who will forward it to the Collector of the port whither the vessel is bound.

The Consuls are to make no charge for the certificate, and vessels arriving without it will be subject to a fine.

Wants to know whose Family he belongs to.—The Logan (Ohio) Republican says:

We were rather surprised to hear our Prosecuting Attorney, who has hitherto been recognised as an Administration man, proclaim that he had always stood by Judge Douglas; but we suppose he thought it better to be in that party than no party at all. Perhaps he had feelings somewhat akin to the little boy who was found leaning against a lamp-post in one of our cities, crying. A gentleman approached him, and asked the cause of his grief. "Why," said the little fellow, with a most woe-begone countenance, 'my mother died, and my father married another woman; then my father died, and his wife married another man; and now I don't know what family I belong to —"

The prize money to be paid to the military serving in India, says the Glasgow Herald, is enormous. Lord Clyde's share is said to exceed £50,000.

The Methodists of Alabama have raised $300 000 as a beginning for an endowment fund for a university at Greensborough.

LOCAL AND MAINE NEWS.

Rev. J. Gulliver will preach for the Congregational Society (Union-Street,) to-morrow. A contribution for the poor will be taken up, which (as there is no City Missionary,) will be distributed by a committee of the Society.

Rev. Woodbury M. Fernald of Boston, a minister of the New Church, will preach at Congress Hall, to-morrow morning and evening. Subject in the morning.—Prayer, or the law of Asking and Receiving; in the evening, The Second Great Commandment.

The steamer Daniel Webster, as we have before announced, closes her season on Monday next, (23d inst.) When she reaches Portland on that day, she will have completed ninety-nine trips during the season—not having lost a trip since she commenced running in April last. The M. Sanford, on the outside route, has lost but one trip, although she has had a good deal of bad weather. This, we believe, is unprecedented in the history of eastern steamboating.

Mr. Editor:—If the gentleman (?) who does the meanest kind of pilfering—steals a newspaper from a door handle—will return mine, (of course after he has read the news out of it,) he will confer a favor upon me.

I would humbly suggest a mode by which he can return it, and not be discovered by me, viz:—when he intends repeating the above operation, just leave the *read* paper, and take the non-read. Devil.

Police Court.—Friday, Nov. 19.—Artemas Maynard and Stephen Silk were sent to the House of Correction as common drunkards.

Dealers in fruit are referred to the Card of Messrs. Bliss & Co., No. 47 Chatham st., Boston. They keep an extensive assortment of foreign and domestic fruits, and are constantly receiving fresh lots of the choicest kinds.

Livery and Sale Stables.—We call attention to the advertisement of Mr A G Hunt in another column. Persons having good horses to sell will do well to give him a call. Mr Hunt also furnishes fine teams to his customers. Give him a call.

The Ox Stealing Case.—Charles Patten, who was arrested in Lowell last week by Deputy Marshal Emerson, on charge of stealing an ox last summer from Benj. Reed of this city, was examined before the Police Court yesterday, and in default of bail in $300, was committed for trial at the next criminal term of the Supreme Court.

More Arrests for Robbery.—At the Police Court, yesterday, Ira S. Runnels and James Jones, Jr., brought up by Walker & Bicknell, were charged with breaking, entering and robbing the store of Benj. Gowen on the Six Mile Falls road, in this city, on the 13th of September last, and were held in the sum of $500 for further examination on the 27th inst.

☞ The last chance to see the Rake's Progress, this Saturday evening at 15 cents—The afternoon at 3 o'clock for children at 5 cents each. We hope those who have not yet seen this noble work will embrace this last opportunity.

There is but one prisoner in Somerset jail, who is the jail in Bangor is full.—*Kennebec Journal*

We patch the rogues over this way.

A Maine Man in New York.—Mr. Anson Herrick, of the New York Atlas, is the run-town democratic candidate for Congress in the 9th New York (city) district. Mr. Herrick, in years long gone by, printed an anti-Masonic paper in Hallowell, we believe, and subsequently carried on the printing business in Bangor. The citizens here seem to have a pretty clear remembrance of him, and to consider that even before he left Bangor he had qualified himself to serve as a democratic candidate in a city where the New York Herald and New York Atlas are leading democratic organs.

Portland Savings Bank.—The amount now on deposit is $134,879. Invested in public securities, $40,976; in mortgages of real estate, $73,143; in railroad bonds, $14,615; bank stock and other securities, $6,980.

Medical.—Among the articles in the November number of the "Maine Medical and Surgical Journal," are the following:—Disease of the Supra-Renal Capsules, by Daniel McGuier, M. D., Bangor; Operations for Cataract, by R. Seeds, M. D., Portland; Medical Jose of Wines; The Yellow Fever Hom ordial Mania; Professor Cleaveland.

The Portland Provident Association expended during the last winter $1427 for food, fuel and clothing for the poor. They have commenced the present campaign vigorously.

What is doing in Bangor? Are the usual Thanksgiving contributions for the poor to be taken up in the churches as a commencement for the season? [We see a collection noticed in one church, and trust it will be a full.]

The Wiscasset Murder Trial.—The trial of Jeddiah Preble of Whitefield, for the murder of his wife, resulted in a verdict of guilty of murder in the second degree. The following synopsis of the testimony is furnished by a correspondent of the Lewiston Falls Journal:

The first witness testified that he called at the defendant's house on the twelfth day of March last, about nine o'clock, A. M., and found the door fast. It was opened by the defendant, who stated that his wife, then lying upon the bed, was sick. This witness saw blood on the defendant's shirt, and the deceased upon the bed, and saw the bed clothes moved.

The next witness, Mrs. Gould, went to the house, and found the doors fast, on the eleventh, and was called by the defendant on the twelfth, at half past one, P. M., and told by him that his wife was dead.

The first witness went to the house at this time, and found the body in a different position than when he was first there, with neither sheets nor pillow cases upon the bed. The defendant said that his wife fell upon the floor and bruised herself. Mrs. Gould and other witnesses saw blood upon the door, and upon the floor near the bed. The defendant came to her house last fall, whither his wife had fled, broke in the door, and used vulgar language in reference to her. At another time he threatened that if she came to his house again he would kill her.

Another witness testified that Mrs. Preble had a wound on her forehead last fall; that her arm was lacerated and swollen, and that the defendant said he knocked her down with a chair; and another witness said he saw the defendant knock her down with a chair. At another time he used profane language, and pulled her violently out of bed.

About a fortnight before her death he said she would never have him again. After the death, bloody garments were found in the house, answering in appearance to those formerly worn by both the deceased and the defendant.

The defence, as developed by the testimony, was that his reputation has always been that of a peaceable and quiet man, except when under the influence of liquor, and that he was intoxicated at the time of the commission of the deed and the question would be for the decision of the court, how far intoxication would excuse crime committed under its influence.

[Intoxication is generally considered no excuse for a man in the commission of crime. If he voluntarily creates himself, he must be held responsible for all the acts consequent thereupon.]

Barge Burned. On Thursday night, the Wild River Bridge, on the Grand Trunk Railroad, in Gilead, was entirely destroyed by fire. It is supposed to have taken fire from an extra night freight train. The trains yesterday were delayed nearly half an hour in consequence—the passengers being obliged to change cars Our informant, Mr. Pitmen, thought the loss would not exceed $1000.

Accident. John Bell, a workman on the bark Louis, at Portland, was knocked down on Thursday by a falling yard, and injured so much that his recovery is doubtful.

Fatal Result. Miss Newcombe, the young woman who was burned by a fluid lamp explosion in Portland on Wednesday, died the next morning.

Burglaries in Portland. Messrs. Rounds & Dyer's counting-room on Franklin Wharf was entered by burglars on Wednesday night, and an attempt made upon the safe—failing in which, the rascals contented themselves with a lot of "Rounds' Salve," two old coats and 25 cents in coppers.

The office of Capt. Chas M Davis of Portland was robbed of $17 while he was absent, on Thursday noon.

Fire in Rockland. The shop of Hemmenway & Jones, with all their tools, and a quantity of doors, sashes, blinds, &c, was destroyed by fire on Wednesday evening.

Acquitted.—Frank Hodgdon, who was tried at Wiscasset last week on a charge of murdering James M Peaslee, was acquitted by the jury, on Saturday night After the evidence in the case was put in, by agreement of counsel, it was submitted to the jury without argument, upon the charge of Judge Appleton The jury, after being out 12 minutes, returned a verdict of "Not Guilty."

John B Measrve, Esq. of Rockland, defended the accused, and, as we are informed, managed the case with great ability.

Atlantic Bank.—The hearing on the application of the Bank Commissioners, made on the 5th inst. for an injunction against the Atlantic Bank, was had before Judge Davis in Chambers, at 10 o'clock yesterday. It was found by the Court that some *informalities* existed in regard to some of the loans of the Bank, and the restriction was so far modified as to permit the Bank, on and after Monday next, to commence the redemption of its bills and the collection of its debts, but not to re-issue bills or resume active business until the allegations on the part of the Bank Commissioners are remedied and a satisfactory showing is made to the Court that such has been the case For this purpose the further consideration of the case was adjourned for one month.—*Argus, Friday.*

Professor Cleaveland.—The College Faculty still hold their meetings, on Monday evenings, in the study of the late Professor Cleaveland, where, in fact, for many years these meetings have been constantly held. A person who enters the hall of Professor Cleaveland's house, will see on its hat and cane standing in their accustomed places, and he can hardly realize that a gentle tap upon the study door, will not draw forth the wonted "come in," and he be recognised with a kindness, cordiality, and sunshiny of manner it at will put him quite at ease, even though he be all unacquainted with the temate. and unaccustomed to converse with a man, who has made books and his Creator's works the study of a long, laborious and successful life.—*Brunswick Telegraph.*

Maine Apples.—One of the great defects in Maine, is want of care in sorting and packing apples for the market. No purchaser of Maine apples, in any market, dares depend upon the quality. Those marked No. 1, which of course should have no worm holes in the side, nor many in the blossom, nor otherwise defective, are often so mixed with apples thus defective, as to destroy all confidence.—*Kennebec Journal.*

A Call.—Rev. A. Hutchings has received and accepted a call to the Universalist Church at North Auburn. He has been a successful pastor in West Waterville and Sidney for the past five years.

Fatal Accident to a Maine Man.—Samuel N. Loring, a native of North Yarmouth, and recently a resident of San Francisco, Cal., met with a serious accident on the 7th of September last, which resulted in his death. While hunting in the woods his gun slipped from a log when he was reading, and its contents were discharged into the lower part of his body. He left a family at home.

Wallabrass.—The Ellsworth American states that a gentleman who was many hours in Wallabrass, the "twin mother to Hornby," during the year 1857, reports that there were but two families living there at that time, but that there were eighteen children in one of these families, and in the other none. It will be recollected that there were thrown in the aneinous precinct, at the recent election, forty votes. This gentleman accounts for this large vote where there are no voters, in the way—that all these eighteen children voted twice, making 36, and the balance was made out by the old folks in the same way.

Close of Navigation on the St. John.—The St. John Herald of 12th says:

The river was frozen yesterday down as far as Gagetown, below which it was clear of ice. The river steamers, we are informed, are all down. As last night was very cold the river is in all probability closed. The navigation this year has closed much earlier than usual.

"How do my customers like the milk I sell them?" Oh, they all think it of the first water."—*New York Sun.*

Various Items.

"A First Class Gentleman."—An advertisement appears in a city paper to this effect: "A first class gentleman can be accommodated with a large parlor and bedroom (furnished) without board, heated by furnace, gas, and well ventilated."

It does not state what credentials the applicant must present to constitute him "a first class gentleman."

Consolation.—People who have been ruined by lawsuits will probably find happiness when they are reduced to necessity, for that has no law.

Appointments of American Ministers.—Mr. Dodge and Mrs. Lodge represent our country at Madrid, and go to all the bull fights. At the last exhibition, they had the pleasure of observing the destruction of twenty-three horses and six bulls, inside of two hours.

Railroad, on the overland route, is described by the correspondent of a California paper thus: "Ragtown is said at one time to have contained thirty whiskey shops, and was broken up by famine and disease in 1854. There is a large cluster of graves near by, which are said to have been dug chiefly by bad whiskey.

Immigration.—The number of immigrants arriving at New York for the week ending 10th inst., was 2,490, making 72,925 since the beginning of the year. For the corresponding period last year, the arrivals were 188,150.

Who is your Patron? "You know I am a patron of yours," exclaimed a subscriber to us not long since, when asking for the insertion of an article favorable to himself. We begged his pardon, and told him we patronized him, that we left for him a newspaper, that costs us twice the price he paid for it, and that derives all its life and profit from its advertisers.—*Worcester Transcript.*

Injected Death of Mr. Harris, of Illinois.—Mr. Harris, of Illinois, who, though far advanced in a fatal consumption at the last session of Congress, distinguished himself for his ability and energy, lies now at the point of death. During the recent canvass in Illinois, he was unable to take any part, beyond writing a letter to the friends who had again put him in nomination. He insisted on being carried to the polls to vote, but has not since left his bed. It is almost impossible that he should ever leave it.

The Senator who won the $180,000 at the Faro Bank of the "distinguished sportsman" recently deceased at Washington, is said to have been the Hon. James A. Pierce of Maryland. So says the Cincinnati Gazette.

Cabbages and Dissension.—We have found a new bond of union for our republic. The Atalanta Georgian acknowledges the receipt of cabbages from the New York market, which sell readily at 400 per cent advance on cost, and says the idea of a people who shall not raise their own cabbages being bored to death by agitators about independence, and urged to disunion, is preposterous. If they will not raise cabbages now, they will not raise them then, and the South would have to import them from a *foreign* country, with a tariff of two or three cents per head tacked on to help to defray the expenses of the government, or for *incidental protection* to encourage the home production. Dissolve the Union and import cabbages—preposterous!—*Louisville Journal.*

TELEGRAPHIC.

TO THE DAILY WHIG AND COURIER

From Washington.

WASHINGTON, 19th.

The Collector of the Customs at Mobile has by this time received the letter of the Secretary again st granting a clearance to the Alice Painter for Greytown. The objection rests mainly on the ground that the expedition now proposed assimilates to that of Nov, 1857, when the steamer Fashion escaped by false papers at the Mobile Custom House, the same Collector having then been deceived.

Grain Falling.

ALBANY, 19th.

The entire front of the large brick building on Quay street, in this city, in which Messrs Shepard & Co, had stored several thousand bushels of grain, fell into the road this morning, and some 4000 or 5000 bushels of oats were thrown out with the bricks into the street.

South Pass Wagon Road.

ST. LOUIS, 19th.

Col. Lamer, Supt. of the South Pass Wagon Road arrived at St. Joseph on the 14th inst, and reports that the road was completed to City Rocks, Nebraska, in eight months, at a cost of $10,000. The government appropriated $175,000 for the purpose, and the time allowed was 18 months.

Col. Landar and his party w ater at St. Joseph, and will start out again in the spring.

The Cheyennes had burnt the grass along the Platte, causing much suffering among cattle.

From New York.

NEW YORK, 19th.

The catastrophe at the arsenal apparently the explosion of powder or a steam engine took place at an early hour this morning.—The building was not blown down, but the flooring gave way, crushing everything in its way, and p netrating most of the site and partition walls A portion of the wall fell in on an adjoining house, crushing in the roof and severely injuring a woman lying in bed.

The building was in process of erection and nearly completed. It was built of stone, was 200 feet long, 100 wide and 60 high. Loss $50,000 or 60,000. There was no person injured, the accident occurring before the arrival of the workmen.

The steamship Circassian sailed this afternoon for Galway, via St. Johns, N F. She took out up wards of 100 passengers.

Mr. John Hecker, the well known baker, entered a suit for libel against the Sun and Herald, for publishing the spurious notice of the distribution of food to the poor on Thanksgiving day. Mr Hecker is one of the parties whose names were attached to the notice.

Another one of the repudiated signers was attacked in the streets to-day by a mob of the victims of the hoax, and his life threatened.—He escaped with the aid of the police, who arrested several of the assailants.

HOW DID THE STEAMER AUSTRIA TAKE FIRE? Philip Berry a member of the Theological Seminary at New Brunswick, N. J., who is one of the survivors of the burning of the steamer Austria, writes to the New York Times, throwing doubt on the statement that the steamer took fire from the dipping of a hot chain in turpentine for fumigation, and expressing confident belief that the fire originated in the boiler room. No one of the survivors saw the fire take fire, or has any knowledge that the fire originated in that way. But the captain had made a bet that he would reach New York on the 18th of September. He was crowding the engines to their utmost speed, to accomplish this object, and turpentine was no doubt used in the furnaces. We copy from Mr. Berry:

"About noon of Sabbath, Sept. 12, the black smoke began to pass off from the smoke pipe It was a thick, heavy, dense cloud that gave the first cause of apprehension. At evening, when it was growing dark, the smoke changed to flame, which, when it was really dark around, for it was overcast, came raging out of the smoke pipe like the flames from a blast furnace, 15 or 20 feet in the air. It was a terrible sight, and somewhat of a panic existed on board, but the officers quieted the passengers by saying "they were using a new kind of coal which they did not understand managing" Remember the hold of the vessel was about 40 feet deep, and the smoke pipe about 25 feet above deck, and the flames nearly if not quite 30 feet above the smoke pipe—giving a column of from 60 to 70 feet of savage flames! That must have been peculiarly inflammable coal! The next day, until the vessel was in flames, was this state of things seen Of course the vessel was heated. To stand on the lee side of the smoke pipe on Monday morning, (Sept. 13,) was very uncomfortable, when other mornings I stood entirely unconscious of any inconvenience from the heat. The passage ways beneath deck were oppressively hot, and it was exceedingly disagreeable to pass from fore to aft through them

Now, at the time the alarm was given, the flames were coming in under the quarter deck. They must have ravished already 260 feet of the ship's length! If the tar bucket was the cause of the fire, the fire started in the forepart of the steerage; and how flames could reach through the steerage, and completely overmaster the midships, and find their way under the quarter deck, by the time the alarm was given must be explained by other principles than that of common sense. Could the fire not have originated from the furnaces which had prepared the vessel for its fate, by rendering it like tinder for the flames? Will not this better explain how the flames were so far aft at the time of the alarm? Will it not more satisfactorily explain the rapid spread of the flames and the mystery of the burning? Will it not give some clue to uncover the captain's fatuity? Could not a guilty conscience —a consciousness of doing wrong, and the fear of this result—have been causes which made the Captain a child when he should have been a giant?"

THE Managers of the Augusta Lyceum have succeeded in the organization of a course of home lectures for the coming winter; he ... to commence about the middle of December.

Mothers! Mothers!! Mothers!!!

Don't fail to procure Mrs. Winslow's Soothing Syrup for Children Teething. It has no equal on earth. It greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain and is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases.

This valuable preparation is the prescription of one of the most experienced and skillful female Physicians in New England, and has been used with never failing success in millions of cases.

We believe it the best and surest remedy in the world in all cases of Dysentery and Diarrhœa in children, whether it arises from teething or from any other cause. If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of bottles are sold every year in the United States. It is an old and well tried remedy.

STEAMERS.

SUMMER ARRANGEMENT.

NEW YORK & PORTLAND.

The Splendid and Fast Steamer

Chesapeake,

Capt. SIDNEY CROWELL, will run regularly, between *New York* and *Portland*, as follows:

Leaves Brown's Wharf, Portland, every SATURDAY, at 4 P. M., and returning, leaves New York, Pier 12 N. R., every TUESDAY, at the same hour.

This vessel has just been fitted up with fine accommodations for Passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine.

PASSAGE $5,00—including Fare and State Rooms.

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John. Also, connects with steamers for Baltimore. Goods taken through with despatch, at the cheapest rates.

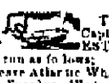

For freight or passage apply to

BARRY & FOX, H. B. CROMWELL,
Brown's Wharf, Pier 12 N. River,
Portland, New York.

Portland, April 2, 1858

Portland to Boston.

Summer Arrangement.

The Steamers LEWISTON, Capt. Geo. Knight, and the FORREST CITY, Capt. F. J. Prince will run as follows:

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 6 o'clock P. M.

Fare in Cabin,	$1,25
Fare on Deck,	1,00

Freight taken as usual.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families; and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, viz. Panama R. R.

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on travelers, those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line as below

By order of the Post-master General, the United States Mail Steamers will hereafter be despatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers without any extra expense. This is the only line giving entire Through Tickets, guaranteeing no detention on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever at Chagre, and 200 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamers will leave Panama for San Francisco punctually on arrival of the Atlantic mail and passengers, thus securing passengers by the Mail Line a sure and *short* passage, with the greatest comfort and safety to health.

☞ *No bets must be signed by runs of the Company's Agents before they will be recognized by the Agents at Panama*, and tickets thus sold can be obtained of the *only Authorized Agent* for the U. S. and Pacific Mail Steamship Companies, in this city C. G. BARTLETT, Agent.

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington under the Act of 1837,)

76 State St., opposite Kilby St.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the real duty of utility of Patents as Inventions—and legal or other advice rendered in all matters touching the same. Claims of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of carefully ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reasons to believe, and can prove, that at no other office in the land are the charges for professional services so moderate.

The immense practice of the subscriber during the last twenty years, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides the extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are hereby saved inventors.

TESTIMONIALS.

[Copy.] Mr. Eddy is one of the most capable and successful practitioners with whom I have had business to transact. CHAS. MASON,

Commissioner of Patents.

I have no hesitation in assuring inventors that they cannot employ a more assiduous competent and trustworthy, and in no respect a more gentlemanly and honorable person to secure for them early and favorable decision at the Patent Office. EDMUND BURKE,

Late Assistant Commissioner of Patents.

Boston, February 8, 1858.

Mr. R. H. Eddy has procured for me THIRTEEN patents in one year, all of which have been granted on his first examination, without the slightest objection or delay. I do not hesitate to recommend him as a gentleman duly qualified to attend to the business entrusted to his care, and to secure patents as cheap and as early as any other agency. JOHN TAGGART.

From Sept. 17, 1857, to June 17th, 1858, the above named, in course of his large practice, made the above recorded applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

LINCOLN'S

WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

Is it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof the case is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet tannery with my boots constantly in water, and have no boil my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

Hitchcock's Combination Suction and Force Pump!

FOR SALE, a new kind of PUMP—suction and force—different from any thing now in use, for durability, &c. You can draw water from a deep well and force it to any part of your building at the same time, in case of fire or any other exigency. You can have it with or without the forcing part. Any person, with a jack-knife, can do all the repairing that it will need for twenty years, as it will not get out of order and is not liable to freeze up like other Pumps. It has received the first premiums at four State fairs, and numerous county fairs.

It may be examined at the Tin Shop of Albert Noyes, Central Street, Bangor, where I shall remain for a few weeks. Town rights for sale.

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographic and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

Scientific American.

PROSPECTUS.

Volume Fourteen.

BEGINS SEPTEMBER 11, 1858.

MECHANICS, INVENTORS, MANUFACTURERS AND FARMERS.

THE SCIENTIFIC AMERICAN has now reached its Fourteenth Year, and will enter upon a New Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry, abstruse work on technical science; on the contrary, it so deals with the great events going on in the scientific, mechanical, and industrial worlds, as to please and instruct every one. If the Mechanic or Artisan wishes to know the best machine in use, or how to make any substance employed in his business—if the Housewife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on in the way of improvements—if the Manufacturer wishes to keep posted with the times, and to employ the best facilities in his business—if the Man of Leisure and Study wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of telegraphs, steamships, railroads, reapers, mowers, and a thousand other appliances, both of peace and war—all these details can be found in the SCIENTIFIC AMERICAN, and not elsewhere. They are here presented in a reliable and interesting form, adapted to the comprehension of minds unlearned in the higher branches of science and art.

TERMS.—One Copy, One year, $2.00; One Copy, Six Months, $1; Five Copies, Six Months, $8; Ten Copies, Twelve months, $15; Fifteen Copies, 12 Months, $22. Twenty Copies, Twelve Months, $28, in advance.

Specimen copies sent gratuitously for inspection. Southern and Western money, or Postage Stamps, taken for subscriptions. Letters should be directed to MUNN & CO.,

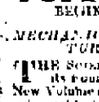

128 Fulton Street, New York.

☞ Messrs. MUNN & Co. are extensively engaged in procuring patents for new inventions, and will advise inventors, without charge, in regard to the novelty of their improvements aug24

CENTRAL HOUSE,

CORNER OF

Broadway and Hancock streets.

The undersigned would respectfully call the attention of the traveling public, that he has opened the House for the convenience of all classes of guests; and no efforts will be spared to make it deserving the public patronage. In connection with the House is a large and convenient STABLE, with double and single stalls, as may be desired, and having secured the services of one of the best of hostlers, who is thoroughly acquainted with his business, they may be assured that their horses will receive the best of care and attention. There is also a large basement fitted up with stalls for cattle, separate or in droves.

From its central location and liberal arrangements, the subscriber asks a share of your patronage.

THE LIVER INVIGORATOR,

PREPARED BY DR. SANFORD.

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now in use.

There have been a great many cases of Liver Complaint, Dyspepsia, and Costiveness, that have been entirely cured by the use of this medicine, after all other remedies had failed. It is unequalled for Sick Headache, Biliousness, Jaundice, Dizziness of the Head, Sour Stomach, Heartburn, Loss of Appetite, Piles, Rheumatism, Pain in the Side, Back, Loins, and Kidneys, and all diseases arising from a disordered Liver, Stomach, or Bowels. In fact, in all cases where a cathartic is required, it will be found to operate with certainty and safety. Being purely vegetable, no restraint of diet is necessary during the time it is being taken, nor is it necessary to change from your ordinary habits of living.

Directions for using will accompany each bottle. Price 50 cents per bottle.

Sold by all Druggists and Dealers in Medicine throughout the United States, Canada, and South America.

All who use it are in any thing but unqualified in its favor.

Mix water in the mouth with the Invigorator and swallow both together.

Price One Dollar per Bottle.
